

TRUE Care

EXCITING NEWS: WILMINGTON HEALTH AT PORTERS NECK HAS A NEW **STATE-OF-THE-ART CT SCANNER!**

Wilmington Health radiology is continuously striving towards improvements in radiology performance at Wilmington Health! With our new “Canon Aquillon Lightning 40” CT Scanner, we will be able to provide the ultimate in TRUE Care in Radiology!

- 40 – slice CT scanner.
- Advanced Canon software is now used at both Porters Neck and 1202 locations to reduce patient’s radiation dose.
- Faster scan times make it easier for patients to hold their breath and remain motionless.
- Internally, it also means we can handle higher patient volumes each day.
- Metal Artifact Reduction for more detailed scans when a patient has any sort of joint replacement or other metal in their body.
- In addition to our routine studies, we will be able to perform specialty studies with this advanced technology to include: Landmark Sinus & Super D protocols.
