in all ways

WE LIVE HERE • WE WORK HERE

OUR COMMITMENT to the health and well-being of our community is part of the fabric that drives the decisions we make every day at Wilmington Health. The core values of our organization include the words Respect, Integrity, Leadership, and Accountability.

- We use these ideals in the care we show our patients.
- We use these ideals in supporting our community and moving it forward.
- We use these ideals in the interactions we have with one another.

In these times of uncertainty and confusion, our dedication is not only important for the thousands of patients that we serve, but also for our outstanding team members and their families.

Because just like you, we live here, we work here, and we always will be committed to Wilmington in *all ways*.
